A COUGH IS ONLY A SYMPTOM.

A cough is not a disease but a symptom of disease. A cough always indicates that either the throat or lungs are affected. When the mucus lining of the throat or lungs becomes inflamed the irritation causes coughing. Don't neglect a cough. It may be the symptom of serious throat or lung disease. Rydales Elixir kills the germs that causes the trouble, soothes the irritated mucus membrane, gently stimulates the nerves that control the respiratory organs and thus helps nature to speedily restore normal conditions and healthy action. RYDALE'S TONIC

MALARIA It has recently been discovered that the germs that produce Malaria, breed and multiply in the intestines and from there spread throughout the system by means of the blood. This fact explains why Malaria is hard to cure by the old method of treatment. Quinine, Iron, etc., stimulate the roves and build up the blood, but do not destroy the germs that cause the disease. Rydale's Tonic has a specific effect upon the intestines and bowels, freeing them from all disease breeding mi-crobes. It also kills the germs that infest the veins and arteries. It drives from the blood all poisonous matter and makes it rich and healthy. RYDALE'S TONIC is a blood builder, a nerve restorer, and a Malaria destroyer. Try it, it will not disap-
